Signature Seafood Collection

Squid Rings

The authentic flavor of the South Atlantic in an irresistible product.

Made with wild-caught Argentine squid (Illex argentinus), our Breaded Squid Rings combine a tender texture with a light, extra-crispy coating that enhances the product's natural flavor.

Pre-fried and IQF (Individually Quick Frozen), they deliver a premium dining experience — ideal for sharing as an appetizer, pairing with main courses, or elevating retail and foodservice offerings.

A specialty that reflects the quality of the Argentine sea in every bite.
